Bellawood Signature Shadow Valley Hickory Engineered Hardwood

Find your dream floor in four easy steps

For over thirty years, LL Flooring has been at the forefront of the flooring industry. We've used that knowledge to carve the quickest path to your perfect floor with our 123 Floor process.

1 Find Your Material:

We've tailored our range of flooring to fit every lifestyle and space. Whether your home is a bustling hub of activity or a serene retreat, we have the perfect foundation to match your rooms and budget.

2 Browse Your Style:

We have the colors, widths, patterns, and textures to match every taste. Browse our assortment to find what resonates with your unique aesthetic.

3 Finalize Your Choice:

Free samples will let you see how our floors complement your space's lighting and decor, ensuring your final choice is one you'll love for years to come.

4 Install and Celebrate:

Whether you're a DIY enthusiast ready to tackle installation or you prefer the expertise of our professional installers, we're here to support you through the finish line.

We invite you to explore our catalog and embark on this exciting journey together.

“It’s beautiful and fits seamlessly with lots of styles”

ReNature by CoreLuxe Porchlight Pine

Duravana Bay Bridge Oak

Duravana Bay Bridge Oak

Raftyn Rignell

@rignellranch on Instagram,
is a renowned Interior
Design-focused influencer

After six years as a volleyball coach, Minnesota mom-of-three Raftyn Rignell stepped back from coaching in 2014 to focus on raising her young children. However, after showcasing her 1800’s farmhouse renovation for a 2019 Holiday Home Tour, Raftyn rediscovered her passion for interior design and launched an Instagram account to share her DIY projects. Drawing on her competitive spirit and background in sports management, Raftyn quickly grew her Instagram into a full-fledged career.

Alongside her husband Derek, Raftyn tackles major room-by-room renovations in their farmhouse, opting for classic, neutral styles. Considering budget and family needs, Raftyn’s DIY projects, like affordable wall paint makeovers, resonate with her growing audience. For more significant upgrades, Raftyn advises that new floors make a huge impact. Case in point? Her family cabin renovation, where she used our Duravana Bay Bridge Oak Hybrid Resilient Flooring:

“That’s why I went with LL Flooring’s Duravana Bay Bridge Oak Hybrid Resilient Flooring. Not only did it have a beautiful, textured oak finish, it has Dual Defense™ Waterproof Technology and extreme resistance to water, dents and scratches - perfect for a cabin that gets heavy use from my family in all seasons! I also was able to easily install myself thanks to its Easy-Click installation and LL Flooring’s great video tutorials on their website”

Impressed by our flooring, Raftyn turned to LL once again when renovating her rental unit, selecting our ReNature by CoreLuxe Porchlight Pine Waterproof flooring:

“It’s beautiful and fits seamlessly with lots of styles and colors of furniture, but also fits my rental property budget. Bonus: this floor supports a healthy home, made from 25% recycled materials!”
