Silicone  
Vapor  
Shield®

designed by  
allglobe™.ca

## The Best Rated Underlayment for Hardwood Floors!

- Silicone Vapor Shield® protects hardwood flooring from sub-floor moisture.
- Meets the NAWFA's guidelines for a vapor retarder – which significantly reduces the risk of cupping.
- Protects the house environment – by not off gassing hazardous V.O.C's.
- Does not contain tar or petroleum based waxes.
- Does not decay after installation – maintains effectiveness as a vapor barrier.
- Allows planks to slide easily during installation – tear resistant.
- The only underlayment that can be used over radiant heat.
- Prop 65 compliant.
- Tested perm rating of 0.712 for nailed down applications.

GREEN 100% RECYCLED
